

CREATE YOUR OWN CONTAINER

The Port of Long Beach is the second-busiest container seaport in the United States and a major gateway for U.S.-Asia trade. Items that you use every day often live adventurous lives before you even own them. They are often produced in places around the globe, packaged, and transported in large containers that stack like Legos on massive ships.

Follow @artslb and @portoflongbeach on Instagram. For more info and a how-to video visit artslb.org/photo-works

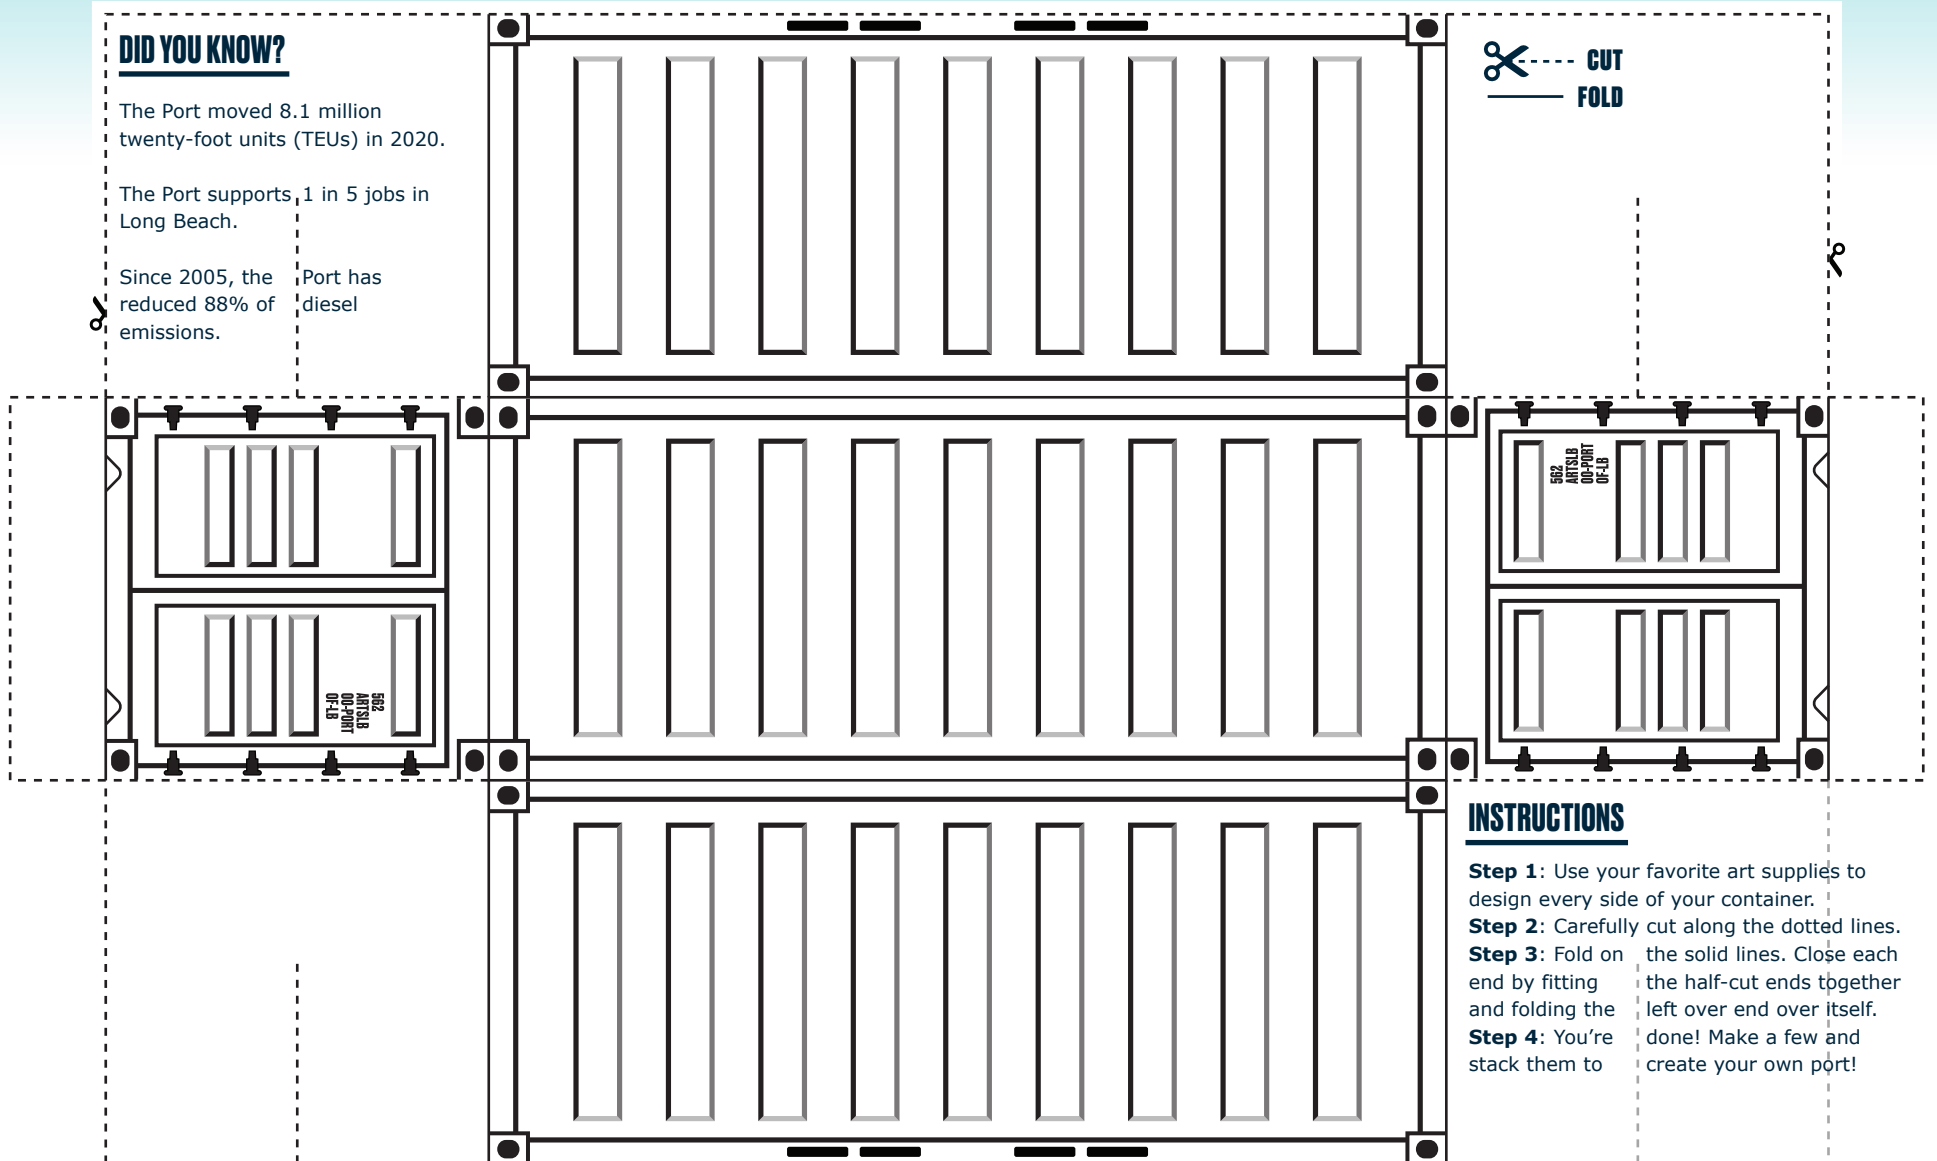

Share your container with the hashtags #artslb #portoflongbeach. The first 100 people who share their container on social media will be entered into a drawing for \$100 from Tuttle Cameras.

DID YOU KNOW?

The Port moved 8.1 million twenty-foot units (TEUs) in 2020.

The Port supports 1 in 5 jobs in Long Beach.

Since 2005, the Port has reduced 88% of diesel emissions.

INSTRUCTIONS

- Step 1:** Use your favorite art supplies to design every side of your container.
- Step 2:** Carefully cut along the dotted lines.
- Step 3:** Fold on the solid lines. Close each end by fitting the half-cut ends together and folding the left over end over itself.
- Step 4:** You're done! Make a few and stack them to create your own port!
